

Questions 9-15 refer to the world map on page 2.

Questions 16-19 refer to the following diagram showing a cross section of landforms.

9. Nation 15 is
- A. Egypt
 - B. Libya
 - C. Colombia
 - D. Yugoslavia

10. Nation 5 is
- A. Tunisia
 - B. Korea
 - C. Brazil
 - D. Chile

16. The mining of minerals is usually associated with which landform?

11. Nation 33 is
- A. Malawi
 - B. Borneo
 - C. Pakistan
 - D. Australia

- A. U
- B. V
- C. X
- D. Y

17. If settlement were to take place in area W, which of the following would be most likely?

12. Nation 37 is
- A. Ghana
 - B. Paraguay
 - C. the Philippines
 - D. Japan

- A. Increase in irrigation
- B. Increase in erosion
- C. Fewer landslides
- D. Less air pollution

13. Israel is closest to nation
- A. 5
 - B. 15
 - C. 28
 - D. 30

18. Which of the following processes could have caused the difference in elevation between W and Y?

14. Nation 17 is
- A. France
 - B. Spain
 - C. Afghanistan
 - D. Sudan

- A. Deposition
- B. Erosion
- C. Urbanization
- D. Sedimentation

15. Nation 28 is
- A. India
 - B. Sri Lanka
 - C. Korea
 - D. Portugal

19. Which practice would be most closely associated with farming at W?

- A. Irrigation
- B. Slash and burn
- C. Contour plowing
- D. Crop rotation

20. A process by which deserts may be changed into productive agricultural land is called

- A. terracing
- B. contour plowing
- C. slash and burn agriculture
- D. Irrigation

21. Which of the following pairs of nations has the most mountainous landscape?

- A. India and Indonesia
- B. United Kingdom and Holland
- C. Nigeria and Kenya
- D. Chile and Peru

22. Examples of natural resources are

- A. paper and pencil
- B. forests and minerals
- C. lumber and boxes
- D. steel and automobiles

23. The most intensive land use is found on

- A. wheat farms
- B. truck farms
- C. forest lands
- D. grazing areas

24. A topographic map can best be used to determine

- A. climatic conditions
- B. density of population
- C. ground water level
- D. physical characteristics of the land

25. The world's largest known oil reserves are located in

- A. Australia
- B. the Far East
- C. the Middle East
- D. South America

26. In which part of Africa is the Sahara Desert located?

- A. North
- B. East Cost
- C. South
- D. Southwest

27. Most of Africa's natural resources

- A. have been used up
- B. have little value
- C. can never be used
- D. are not yet developed

Questions 28-32 refer to the following statement.

Juan is a subsistence farmer. He lives in Central America in a tropical rainforest area. His village is about 100 miles from a major market.
